Nevada 89801 State and Zip Code No.	hereby make.S. application for permission to appropriate the public
waters of the State of Nevada, as hereinaff	ter stated. (If applicant is a corporation, give date and place of incorporation; if a
copartnership or association, give names	of members.)
June, 1973, Colorado	
1. The source of the proposed appropri	iation is Underground Name of stream, lake, spring, underground or other source
2. The amount of water applied for is	1.12 cfs second-feet One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number	er of acre-feet
3. The water to be used for Mining	J. Milling & Dewatering Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.
4. If use is for:	
(a) Irrigation, state number of acres	to be irrigated
(b) Stockwater, state number and kir	nds of animals to be watered
(c) Other use (describe fully under I	No. 12. "Remarks"
(d) Power:	
•	
•	tream
	source at the following point NW 1/4 NE 1/4 Section 13. Describe as being within a 40-acre subdivision of public Manager and a point from which the NW corner of said
	M. at a point from which the NW corner of said ner. If on unsurveyed land, it should be so stated.
	1 ⁰ 24' 42" W, 3303.71 feet.
6. Place of useSe	Describe by legal subdivision. If on unsurveyed land, it should be so stated.
7. Use will begin about	and end about <u>December 31</u> , of each year.
	nder the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or st	torage works.) Well, Pump, Motor, Pipelines, and State manner in which water is to be diverted, i.e. diversion structure, ditches and
	State manner in which water is to be diverted, i.e. diversion structure, duches and
tumes arilled well with nump alth motor etc	

9.	Estimated cost of works\$1,000,000		
10.	Estimated time required to construct works		
11,	Estimated time required to complete the application of water to beneficial use5years		
12.	2. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:		
	This application is for an additional quantity of 264,210,000		
	gallons annually for consumptive use to meet the mining and milling		
	requirements of the Meikle Mine unit. Please use the map that		
	accompanied application 58354 to accompany this application. HIGH DESERT Engineering, Agent By S/ Robert E. Morley

	APPROVAL OF STATE ENGINEER		
The	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the owing limitations and conditions: This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. The State Engineer retains the right to regulate pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and existing rights. (CONTINUED ON PAGE 2) amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to cared the control of the control of the control of the control of the exceed still access to the control of the amount of the control of the con		
Wor	k must be prosecuted with reasonable diligence and be completed on or before August 4, 1995		
Proc	of of completion of work shall be filed before September 4, 1995		
App	lication of water to beneficial use shall be filed on or before		
Proc	of of the application of water to beneficial use shall be filed on or before		
Мар	in support of proof of beneficial use shall be filed on or before		
Proof	pletion of work filed SEP 2 8 1995 IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E. State Engineer of Nevada, have hereunto set my hand and the seal of my office, this		
Ceru	Mychael Lungsuche. State Engineer		

(PERMIT TERMS CONTINUED)

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering project.

This permit will allow for the dewatering of the pit area. Any water obtained as a result of this dewatering operation shall be used first by the permittee for mining, milling, heap leaching, drilling, road watering and other related mining and milling uses herein after referred to as mining and milling uses within the described place of use on this permit and by Newmont Gold Company for the same purposes stated above at what is known as the No. 4 Mill.

Any water not used for mining and milling purposes shall be utilized by the TS Ranch on land for irrigation use presently described under the place of use under Permits 16951, Certificate 5605; 16952, Certificate 5606; 28966, Certificate 10226; 28967, Certificate 10227; 29952, Certificate 10043; 29953, Certificate 10044; 30240, Certificate 10046; 30241, Certificate 10047; 30242, Certificate 10048; 30253, Certificate 10229; 30849, Certificate 10057; 31288, 31289, 34766, 34767, 34768, 34769, 34770, 34771, 34772, 34773, 36020, 36021, 36022, 36023, 36024, 52941, 52942, 52943, 52944, 52945, 52946, 52947, 52948, 52949 and 52950 or any subsequent changes of the place of use of these rights. The intent in the interests of the best and most efficient management of the resource is to substitute water from dewatering of the pit area for water presently authorized to be withdrawn from the Boulder Flat Groundwater Basin under the above described permits.

Any water from this dewatering operation shall not be discharged to any natural drainages or man-made drainages unless specifically approved by the State Engineer.

Any water not used for mining and milling purposes may be utilized: to address water right impairment, if any, resulting from the diversion of water pursuant to the Barrick Applications; to satisfy water use and water management requirements, if any, resulting from actions taken by other governmental agencies; to reinject or infiltrate water; to replace existing authorized ground water withdrawals; and to serve other beneficial uses that would not adversely impact other water rights. The authorized uses under this permit are subject to the terms and provisions of that "Stipulation, Settlement Agreement and Withdrawal of Protest" between Barrick or its successors and Eureka County filed in the State Engineer's Office on November 7, 1994.

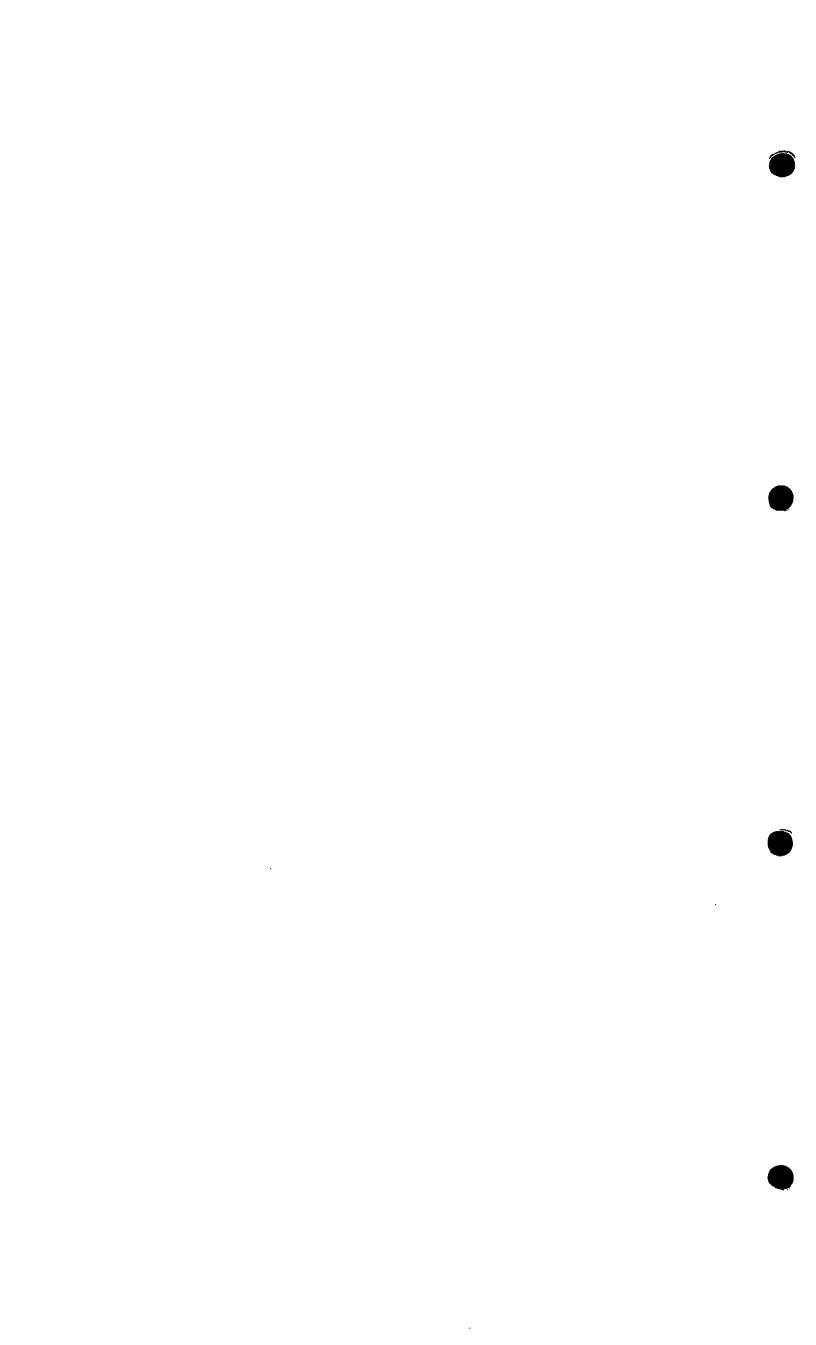

This permit is subject to the "Boulder Valley Monitoring Plan" previously

approved by the State Engineer on April 10, 1991.

This water may be diverted to storage and/or discharge through the reservoir constructed under Dam Application J-320. Rights to place such water to use for consumptive or non-consumptive purposes shall be provided under Primary Permit 55272 and any secondary permits issued thereunder.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount pumped from each well, the amount used for mining and milling purposes and the amount of water diverted to storage; in the reservoir.

The total combined consumptive duty of water under Permits 54926, 54927, 54928, 55138, 55139, 55140, 55141, 55142, 55143, 55145, 55146, 55148, 55149, 55150, 57217, 57218, 57219, 57222, 57223, 57224, 57225, 57226, 57227, 57228, 57229, 57230, 57231, 57232, 57233, 57234, 58354, 58355, 58469, 58470, 58471, 58472, 58473, 58474, 58475, 58476, 58543, 58544, 58545, 58546, 58547, 58938-T, 58939-T, 58940-T, 58941-T, 58942-T, 58042-T, 58042-58943-T, 58944-T, 58945-T, 58969-T, 58970-T, 58971-T, 58972-T, 58973-T, 59195-T, 59684-T, 59685, 59686, 59687, 59688, 59689, 59690-T, 59691-T, 59692, 59693, 59694-T, 59695-T, 59696-T, 59697-T, 59698-T, 59860 and 59861 shall not exceed 11733.0 acre-feet annually for mining and milling purposes.

6. Place of use...

Describe by legal subdivision. If on unsurveyed land, it should be so stated.
